- RIVISTA DI BIOLOGIA/BIOLOGY FORUM
- SOCIETA' ITALIANA DI STORIA DELLA SCIENZA (SISS)
- COMUNE DI ARCIDOSSO

Time seems to be ripe for starting up rigorous confrontations, structural co-ordinations, new and far-looking syntheses in all the field of scientific research, so more that Twentieth Century has come to its real conclusion years after its conventional end has left us a huge conceptual legacy with plenty of wide and fruitful perspectives. Arcidosso should sound for all as a place, a chance, a date which aims to serve the above mentioned goal and rationally rooted need, in collaboration with scientific leaders. We friendly invite you now, end of August we'll be waiting for you in a fascinating little town with its surroundings, inside the mythical region of Toscana, Leonardo's and Galileo's native land.

## WORKSHOP

# Scientific Research and Society during the last fifty years

Joint Meeting: Care HHH-APD workshop about  
"Scenarios for the LHC luminosity upgrade"

We acknowledge the support of the European Community-Research Infrastructure Activity under the FP6 "Structuring the European Research Area" programme (CARE, contract number RII3-CT-2003-506395).

COMUNE DI ARCIDOSSO  
Provincia di Grosseto
